MediaQ: insert insert into/
from... where If I have this

query: insert into table (column1, column2, column3) from (select * from table where condition) where column3 = 'condition' ..it fails: #1064 - You have an error in your SQL syntax; check the manual that corresponds to your MySQL server version for the right syntax to use near 'from (select * from table where condition) where column3 = 'condition'' at line 1 How do I convert it to a prepared statement? A: Try insert into

table (column1, column2,
column3) select * from table
where condition where column3

Spots to Go Beav Hunting in
Minnesota There's a bit of a
misconception in Minnesota that
beavers (and bears, and otters,
and fish, and squirrels) aren't
real. Sure, they're not man-eating
monsters lurking in your
backyard, but that doesn't mean
they're not real. In fact, they're
Minnesota's version of a fairy-

tale creature and they can be as common as you'd think in the woods. While the beaver isn't native to Minnesota, the animal has been a part of the state's landscape for hundreds of years. The beaver is actually a form of a rodent that belongs to the Castoridae family, which includes the beaver, the muskrat, and the nutria. The first beaver came to Minnesota with European settlers and, while they weren't abundant in the wild,

they quickly grew in numbers and adopted their new home. Because of their abundance and their tendency to build dams, beavers were soon considered an important part of the landscape and used in multiple ways, from building fish ladders to flour mills. It's been said that anyone can enjoy beaver. They're cute, they're com 2d92ce491b
