What's New In?

Take your call center to the next level with PrettyMay Call Center. If a call is handled by Skype, it will show up as a Skype line. You can add your own extension/voicemail to the Skype line. You can block out/unblock incoming calls from certain Skype IDs, block calls from certain location/country or even terminate the call from a Skype line. With PrettyMay Call Center, you can save a lot of time and money in setting up a call center. With PrettyMay Call Center for Skype, you will enjoy these advantages: Call recording Leverage Skype's super-fast response and call handling capabilities to capture all the audio from the call and send it to PrettyMay Call Center for voice/audio file playback and (optional) further analysis. Our call recording feature will automatically start recording a call when the caller presses a predefined key on the Skype or Skypein UI. With PrettyMay Call Center, you can playback the call recording to see how the call was handled by your representatives. You can playback the recorded audio to replay the caller's voice to the representative before handling the call or

to ask more questions to the caller. Automatic disconnect Take your call center to the next level with PrettyMay Call Center's automatic disconnect feature. With PrettyMay Call Center, you can set a predefined disconnect key on the client side, which Skype will recognize as the automatic disconnect key and terminate the call automatically after a predefined timeout. It will free you from the time-consuming task of handling hangup, which you can use to focus on your core business activities. Conference calling PrettyMay Call Center can connect 2 users to form a conference call. PrettyMay Call Center uses Skype's inter-call media control capabilities to allow users to exchange voices. You can also record the media from a Skype or Skypein call and save it to your PrettyMay Call Center for later playback. Customizable voicemail PrettyMay Call Center offers you a way to customize voicemail greeting for each line. We support different languages and character sets. Caller ID display PrettyMay Call Center shows the caller's ID when called by a Skype line. You can easily determine the caller's country/city/location. Numbers Blocking With PrettyMay Call Center for Skype, you can block out certain numbers from specific Skype/Skypein lines for situations such as a
